

RUTGERS

New Jersey Agricultural
Experiment Station

Advanced Equine Health Care

January 23 - May 5, 2008
Monday & Wednesday Evenings
7:15 to 8:35 PM
Cook Campus - New Brunswick, NJ

A collaborative effort between the Rutgers Department
of Animal Sciences, Centenary College and
the Rutgers Equine Science Center

CENTENARY COLLEGE 
NEW JERSEY

Office of Continuing
Professional Education

This course will present in-depth information on the diseases and common emergency disorders of the horse. It will utilize basic concepts of anatomy and physiology, apply them to clinical situations that might arise in horses, and teach students how to effectively manage many of these health-related situations. A limited number of seats in the program are being made available to continuing education (non-matriculated) students.

Students will learn about “normal” thresholds, as well as problems associated with the major physical systems of the horse. Three exams and a group oral presentation will be part of the required course work. The course is recommended for equine enthusiasts with a medical interest, managers/owners of equine facilities, and students interested in medical science.

“Advanced Equine Health Care and Management” will be taught by Michael M. Fugaro, VMD, dACVS, a veterinarian and associate professor of equine studies at Centenary College and an adjunct professor at Rutgers. In order to enroll, students must have at least a high school diploma; it is recommended, but not required, that attendees have completed “Horse Management”, taught by Sarah Ralston, VMD, Ph.D., dACVN (offered each fall semester). If you register as a continuing education student you will receive 3.6 continuing education units, rather than undergraduate college credits.

Required Texts

The Complete Equine Veterinary Manual (2nd ed.), Pavord, T and Pavord M., 2005, David Charles.

An additional required text on Equine First Aid will be announced during the semester. Students may purchase the texts independently or purchase them at the Cook-Douglass Cooperative Bookstore, located on the Cook Campus in New Brunswick (www.co-opbookstore.com).

Save The Dates!

Developing Future Leaders for the Equine Industry
January 9 and 10, 2008

This unique two-day program will focus entirely on equine interests and opportunities in New Jersey. Subjects will include: the value of the equine industry, networking and relationship-building, decision-making strategies, leadership practices and behaviors, building coalitions, and industry management. The course marks the return of Dr. Karyn Malinowski, director of the Rutgers Equine Science Center, to the classroom – attendees are sure to be moved by the passion she brings to teaching.

For additional information on the course visit the Equine Science Center website at www.esc.rutgers.edu.
